COUNTYTRAK PERFORMANCE INDEX

THE COUNTYTRAK PERFORMANCE INDEX 2019/20

www.countytrak.infotrakresearch.com

infotrak
Research & Consulting

Introduction

Kenyans overwhelmingly ushered in our current constitution on the promise of devolution which they felt result in increased grass root access to resources and political power. Indeed people's expectations of county governments continue to be extremely high.

While most county governments tend appreciate this fact and try to capitalise on low hanging fruits as soon as they kick off, others prefer to spend the nascent stages laying the ground work and planning elaborately for delivery. Irrespective of leadership styles may differ, what is critical is for people to feel the impact of devolution in their daily lives. County governments need to fully decipher the perceptions of their residents and develop strategies that are concomitant with their expectations.

It's against this back drop that Infotrak Research developed the CountyTrak™ Performance index to provide Citizens' Scorecard of their County governments against set key performance indicators.

The CountyTrak Methodology

"The Index will be the first of its kind and magnitude in Kenya. It provides an excellent baseline from which other evaluation tools can be developed and more importantly provides the county governments and other interested stakeholders with robust statistics by ward on the perception of county residents over county governments' performance of the devolved functions."

- Our current index was conducted between October–December 2019 and January 2020 covering all the 47 counties, 290 constituencies and 1450 wards with an overall sample of 37,600. Each county was treated as an individual universe and assigned a cluster sample which ranged between 600 and 2000 respondents guided by the population and number of wards in the respective counties. Within each county, sampling frames were designed using population proportionate to size guided by census data and catered for demographics such as age, gender etc. Data was collected through Computer Assisted Telephone Interviews (CATI) and analysed using SPSS.

- The CountyTrak tool consisted of twelve core functions with thirty three key performance indicators and five approval rating questions. The functions included: Agriculture, Health, Education, Roads & Transport, Energy, Water management, Environment & natural resources management, Trade & Tourism, County Planning & Development, Housing, Lands & settlement, Culture & Sports and Social Services.

- The final questionnaire was structured with using 1-10 Likert scale being applied on each indicator where 1 was very poor and 10 was excellent. The mean was computed for each Sub-Indicator of the Key Performance Indicators (KPI) to get the Index for that Specific KPI. The Overall County performance Index was then computed by taking the average of the KPIs. For the governor's performance rating we asked ;"How would rate the overall performance of your governor since their election in 2017? "

The County Functions covered

AGRICULTURE	HEALTH	EDUCATION	ROADS & TRANSPORT
ENERGY	WATER MANAGEMENT	ENVIRONMENT & NATURAL RESOURCES MANAGEMENT	TRADE AND TOURISM
COUNTY PLANNING & DEVELOPMENT	HOUSING, LANDS & SETTLEMENT	CULTURE & SPORTS	SOCIAL SERVICES

OTHER KEY FUNCTIONS

Under the other key functions, we included the following:
- Making it difficult for people to access hard drugs (bhang, khat, illicit brews, etc.) and pornography? (i.e. licensing, enforcement, registration etc..)
- Ensuring county government services are available in your ward
- Preventing corruption (i.e. zero tolerance to corruption and taking action on alleged corruption cases)

ABOUT INFOTRAK
"Infotrak has proven to be an integral and reliable partner not only in providing business solutions but also governance & public policy insights"

- **Infotrak Research and Consulting is a professional research company that was founded and incorporated under the Laws of Kenya in 2004 following the vision of the founder to provide the Pan African Market with suitable information solutions required to sustain the needs of the ever-growing economies.**

- **Headquartered in Nairobi, Kenya, Infotrak also has affiliate offices in Lagos, Nigeria and field contacts in more than 20 other countries in Sub Saharan Africa.**

- **Providing support to various organisations in the private and public over the last 16 years , we attribute our continuous growth not only innovation, high level of professionalism and dynamism, but also to the intricate attention given to providing clients with relevant and user friendly reports.**

Infotrak Vision

- **To be the leading Market & Social research firm in Sub Saharan Africa**

Infotrak Mission

- **To be a one stop, information solutions provider to clients who want to be leaders in their fields.**

Infotrak Belief

- **Information is power. Only those who really know how to use it become truly powerful. At Infotrak, we place the power of information in your hands!**
